

MES Light Functions

Proven, repeatable solutions for faster Time-to-Value Configuration rather than customization based on customer needs

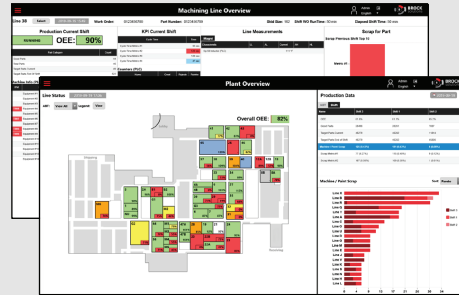

Our customers are looking for light MES to help meet functional needs quickly.

Either they don't want to extend their existing MES, for a variety of reasons, or they don't have an MES and want to move beyond Excel or manual processes in a fast and cost effective way.

Brock has extensive experience in this space, helping customers across various industries implement light MES functions on commercial off-the-shelf tools.

If you want to learn more about how we are bringing these solutions to market, feel free to reach out.
